

MEDICATION ASSISTED TREATMENT (MAT) **POLICY AND PROCEDURE**

MAT as defined by SAMHSA includes opioid treatment programs (OTP) and combines behavioral therapy and medications to treat substance use disorders.

- Individuals coming into McShin that are currently on MAT must follow McShin's medication monitoring policy and are subject to all additional rules and regulations.
 - Individuals showing effects of being overly medicated, will be required to have consultation with an addiction specialist to adjust the dosage.
 - If individuals abuse MAT, they will be subject to a Recovery Plan Assessment.
- Individuals who are currently at McShin and request MAT must go through an Addiction Specialist.
- As of 9/01/2022 Medical Cannabis is not an acceptable form of MAT at McShin.
- All financial expenses for consultation, prescription, and transportation to appointments regarding MAT are the responsibility of the participant, unless otherwise approved by Mcshin staff.

KRATOM POLICY AND PROCEDURE

Although Kratom is considered a natural remedy, it can produce illicit effects. Since there is no way to monitor how an individual is taking Kratom, McShin has implementing a zero-tolerance policy. Therefore, any participant who tests positive for Kratom will be treated as if they were positive for any mood- or mind-altering chemical.
